

Type Tested Panel

A range of low voltage type tested switch boards are designed and assembled by EAMFCO to suit the client's requirements.

EAMFCO also manufactures a range of partially and fully type-tested Low Voltage panels in accordance to market-leading modular construction systems such as ABB System Pro E, ABB System Pro Energy and SENPlus, in order to accommodate all your requirements.

EAMFCO manufactures main and sub-main distribution boards with ratings up to 6300A in varying forms of separation from form2 to form4.

All EAMFCO switch board assemblies comply with the IEC 61439 standard.
